EDUCATION

Maharaja Surajmal Institute (MSI)

Bachelor of Computer Applications — CGPA: 8.89

New Delhi, India

Oct 2021 – 2024

COURSEWORK / SKILLS

Core Areas : Data Operations & Processing | Data Quality & Integrity | Business Intelligence | Database Management (DBMS) | Statistical Analysis | Root Cause Analysis (RCA) | Invoice & Contract Data Management | Analytical Problem Solving | Data Visualisation

EXPERIENCE

Razorbill

Aug 2024 – Nov 2024

Data Operations Analyst Intern

New Delhi, India

- Designed and maintained 10+ interactive Power BI dashboards, processing 50,000+ rows of raw data to support data quality efforts and drive data-driven decision-making across operational teams.
- Automated data pipelines to streamline data processing workflows, reducing manual data entry errors by 43% and saving 10+ hours per project cycle, significantly improving data reliability and reporting efficiency.
- Identified and resolved data issues by coordinating with internal stakeholders and external data feed partners, ensuring accurate and timely data flow across multiple operational streams and client deliverables.

Trustlam Laminates

Jan 2024 – Mar 2024

Data Operations Analyst Intern

New Delhi, India

- Built Power BI dashboards to oversee data processes for sales, supplier performance, and inventory across multiple data streams, reducing stockouts by 20% and improving supply chain efficiency by 15%.
- Leveraged SQL, Python, and Microsoft Excel to process and analyse 90,000+ records, resolving data discrepancies, boosting reporting efficiency by 30%, and enhancing supplier data accuracy by 18%.
- Organised and maintained key operational data including invoices, contracts, and general ledger information for new clients, ensuring data integrity and adherence to internal data processes and quality standards.

PROJECTS

PAN Card Fraud Detection System | *Python, MySQL, Power BI*

June 2023

- Built a Python-based ML fraud detection system achieving 87% accuracy across 2,500+ records; used MySQL for structured data management and maintained end-to-end data integrity across the pipeline.
- Developed Power BI dashboards to visualise fraud patterns across data streams, accelerating case resolution by 20% through improved data quality monitoring and issue follow-through.

Hotel Management & Reporting System | *Python, MySQL, Power BI*

Nov 2024

- Automated a data operations reporting system for 5,000+ bookings, increasing operational efficiency by 25% and cutting manual data processing time by 40% through digital process optimisation.
- Executed end-to-end data analysis on 10,000+ records using SQL and Power BI to identify and resolve data issues, uncovering key trends in revenue performance and booking patterns.

TECHNICAL SKILLS

Languages: Python, SQL (T-SQL, MySQL), C, C++, HTML, CSS

Tools & Platforms: Microsoft Excel (Advanced), Microsoft Power BI, Tableau, MySQL, Alteryx, Google Analytics

Technologies: ETL Pipelines, Data Processing & Quality, Pandas & NumPy, Matplotlib & Seaborn, Linux, GitHub

EXTRACURRICULAR

Maharaja Surajmal Institute (MSI)

Jan 2022 – July 2024

Student Leader

New Delhi, India

- Website UI Enhancement:** Revamped the college website UI to improve user experience and accessibility.
- Leadership & Team Management:** Managed the university dance society for 3 years, achieving 2x membership growth annually through strategic event planning, cross-functional coordination, and stakeholder engagement.
